Are 'News' papers transforming from print to digital?

A cup of chai/coffee and the morning newspaper were synonymous with the Indian start to the day. The joy of flipping through the crisp pages of a morning newspaper and feeling the ink on your fingertips created a sensory connection. Newspapers were the town criers, heralding the breaking news to readers.

reviews

Loved by more than 20 million Indians!

The best news app. I tried almost all news apps for updated and latest breaking news but all are in vein. Also other news apps occupy large space on hard card but Way2News doesn't. I find Way2News the best app ever with latest breaking news, light in weight, beautiful GUI.

Thanks to Way2News team.
